

Milden Annual Parish Meeting 17th May 2022

Minutes of the Annual Parish Meeting held on 17th May 2022 at the Milden Pavilion at 7.00pm

Chairman: Simon Frost
Treasurer: Sandy De'Ath
Clerk: Sara Godfrey
District Councillor – Bryn Hurren
County Councillor – James Finch

Present: Joy Morley, Stephen Morley, Julie Isahak, Mark Isahak, Justine Turner, Adrian Miles, Sally Miles, Tissa Rigby, Joe Coulter, Dick Histed, Jan Ditheridge, Tracey Northwood, David Northwood, Bridget Hawkins, Denise Thomas, Scott Hurrell.

1. Apologies for absence

were received from Juliet Hawkins, Christopher Hawkins, Amanda Fulcher, John Fulcher, Gilly Watson, Antony Watson, Tony Ditheridge, John Rigby.

2. Minutes of the Parish Meeting held on 16th November 2021

The minutes had been distributed before the meeting. These were accepted as an accurate record of that meeting and were duly signed by the Chairman.

Proposed: Mark Isahak Seconded: Adrian Miles

3. Matters arising from those minutes.

Sara Godfrey reported that she had met with Claire Dickson of the SCC PROW team in February to discuss the deeply rutted and uneven surface of Pound Lane. SCC have agreed to repair the surface and works have been issued to the contractor. The work will take place over the summer, an exact date has not yet been provided. The overgrown hedges will be cut back after the bird nesting season, probably in the Autumn.

4. County Councillor's Report.

Councillor Finch gave his report for the year. He kindly provided a written summary which attached at the end of these minutes.

Stephen Morley and Denise Thomas both raised the problem of the inadequacy of the Police 101 telephone number. The number is rarely answered and has been a problem for a number of years. They therefore have no direct means of contacting the Rural Crime Squad to report issues such as hare coursing. James Finch was sympathetic and was aware of the problem. He stated that Tim Passmore (PCC) was aware and that a recent increase in the police precept would be used to improve the service. He advised that if the 101 number was unanswered to call 999 to report hare coursing. He believed that work was also underway to improve police engagement with parishes.

5. District Councillor's Report

Councillor Hurren gave his report for the year. He kindly provided a written summary which follows:-

“Firstly Budget news is that the District Council is increasing Council tax by 2% this year. This seems quite small as it only amounts to a rise of £3.40 per year, but bearing in mind that Babergh only keep just under 9% of what we have to collect and others are asking for slightly bigger increases, it is likely that we will all have to bear an overall increase in council tax rates of just over £60.00 per band D households this coming year.

Our Budget setting process was made a little more difficult this year by the indecision on whether to cut the free parking offer from three hours down to one hour. It costs the council around £640,000 per annum to run all our car parks, of which £310.000 is business rates levied by Government.

Also please bear in mind that Local Government receives no central funding from National Government whatsoever anymore and in the case of Babergh we fund all of our activities and duties with a mixture of your council tax (under 50%) new homes bonus, new business rates. the solar panel investment scheme, CIFCO and other investments and whatever charges that we can make from our services. At a cost of about £3.50 per week per band D household, I do maintain that your District Council remains good value for money for all that we do and we do not reward failure or award knighthoods to staff or councillors who perform badly, or to those that let us down.

I would also state from personal experience that all our accounts and services are thoroughly audited and to the best of my knowledge all of your hard earned tax is wisely spent and not wasted. Everything that we spend goes through a visible procurement process and in almost all cases we award contracts to local firms and increasingly provide services from in house. I make no comment whatsoever here about what happens currently at national level.

It has been once again a year largely dominated by the Coronavirus pandemic and we have done well to deal with all the monies sent down from National Government to distribute to local businesses and infrastructure and also to keep all our own services functioning and on the road.

We owe a lot here to our very dedicated staff who have had to adapt to periods of home working which has been difficult for some, especially for younger members who were used to working as part of a team.

Councillors have also had to get used to contact and remote meetings and as much as I hate Zoom, it has proved very useful for quick contact and I have adapted well and no longer have to shout “you’re on mute” quite so much. We have made a decision to adopt a version of hybrid working, with many staff able to work from home two or three days a week and many staff and councillors alike conducting meetings and briefings without the need to travel. We are finding that we are in fact increasing productivity this way as well as cutting down on needless travel. Jacob Rees Mogg has not placed any cards on the desks of our staff and if he had we would no doubt tell him where he could put them! There has also been a financial benefit as well and we will be giving up about a third of our floorspace at Endeavour house which will bring considerable savings.

Milden Annual Parish Meeting 17th May 2022

Having managed to survive and succeed during the pandemic, we are now facing other challenges. Following on from the need to house a proportion of the Afghan refugees we are now with others across Suffolk working to house many fleeing from the Russian ravages of Ukraine. Around 90 have, or are to be housed with host families here in Babergh in the very near future, and we are expecting many more as visas are issued during the oncoming months.

We remain at Babergh/Mid Suffolk, landlord to nearly 4,000 tenants and have increased our housing stock recently, despite the government RTB still being in operation and haemorrhaging many homes each year, we have done this through building more stock on land that we own as well as buying up stock from windfall sites and becoming landlord to them, instead of housing associations.

Despite this we are facing the greatest shortage of housing ever as a local housing authority, this present Government's Build, Build, Build policy has done us no favours whatsoever. All it has achieved is cheaper houses for those who already had expensive ones, a greater strain on our public services from an increased number of houses (not necessarily more populous) and an ever increasing demise on our greenbelt and farmland. We just need houses that the next generation and the low waged can actually afford to either buy or just rent to get a roof over their heads.

Our tree for life scheme has once again been a success this year and across BaberghMidsuffolk has attracted over 400 recipients across the area from parents of newborns, we hope that this scheme as well as providing and producing more trees, will raise more awareness amongst communities and the young about climate change and nature.

We have this past year converted our fleet of vehicles to run on HVO (hydrated vegetable oil) to decrease our vehicle emissions very drastically and have tried where possible to install air source heat pumps to our rented properties and leisure centres. Also almost half our properties were fitted with solar panels back in 2014/15 which earns us about £350,000 per year in FITs as well as providing tenants with cheap power. We are now developing the need for charging points and terminals ready for the demise of the combustion engine and the switch to electric powered cars, with your district council being a leader in this new phase.

I seem to have been very active these past three years as your councillor and will I am sure remain so, in years to come. I have been pleased to support the fight against the 64 houses on the Boxford bypass which is once again coming to committee on 25 May. I have also been quite active in housing and planning matters including the completion and letting to local residents of the four little affordable homes in Groton St and I am sure will remain so on many other matters and projects including the development and expansion of Boxford Playingfield.

Concerns for the future are the explosive increases in the cost of all sorts of energy and fuel. The rapid rise in food and general living costs. The demise of police and mental health services especially in the rural areas and the isolation issues which are being made worse by the near collapse in our rural bus service.

I am happy to answer questions either in this public forum or privately at the end of this meeting and would like to put on record thanks for the help and co-operation, I have received from the chairman, clerk and all members of Milden Parish Meeting."

Milden Annual Parish Meeting 17th May 2022

6. Finance Report

The Annual Accounting Statement and Governance Statement have been prepared and the accounts submitted for internal audit. Everything is in order and the Treasurer would like to thank Howard Webb for his generous time in completing the audit.

Our balance brought forward for the next year, 2022/2023 is £4045.
The precept set at the November 2021 meeting is £962.

The CIL money held by Babergh DC for us was used to purchase two grit bins for the village at a cost of £324 which means we have £4,574 remaining.

The Accounting Statement was put to the Meeting for a vote,
Proposer – Denise Thomas
Secunder – Mark Isahak

The Governance Statement was put to the Meeting for a vote
Proposer – Denise Thomas
Secunder – Adrian Miles

7. Pavilion/Recreation Ground Report

Adrian Miles provided a written Pavilion report, which he presented to the meeting.

“The Pavilion is coming back into life with spring bringing better weather.

A new website has been created containing information and event details, many thanks to Ollie Eggby for producing this. Website address is www.mildenvpavilion.co.uk it is being developed to promote future events and will contain reports on past events. There is also an online booking form and contact details for communications regarding hiring etc.

An oak tree has been planted with a commemorative plaque to celebrate the Queens Green Canopy for The Platinum Jubilee. Plans are coming together for the celebration on Thursday 2nd June from 3pm. More details will be discussed separately.

An entertaining evening was had in April with Charlie and the Dig which raised money for the Pavilion and DEC Ukraine.

The cricket season has just started with the grounds looking in fine condition thanks to the Groundhogs. Home games are being supported by several locals, more would be welcome.

The Milden Singers are still rehearsing, but would welcome new recruits, please contact Pearl, you can do this via the website.

We are now all up to date with the new statutory policy requirements needed to run the pavilion so special thanks must go to Justine and Debbie for producing these. A lot of work but sadly needed in these times to apply for grants and other bureaucratic requirements.

Milden Annual Parish Meeting 17th May 2022

The pavilion remains in good financial shape, with funds of c.£19k. There are some potential high value investments needed to re-furbish the changing rooms and service the cess pit.

There is still a vacancy on the committee for someone to look after the Pavilion accounts. Tasks involve recording of financial transactions and organising payments in and out of the bank accounts. The role does not need a qualified accountant and currently involves relatively simple spread sheet work. If anyone is interested please raise your hand at this meeting or contact Sara who will pass on my contact details.

In conclusion we are pleased to say that the pavilion remains in a sustainable position so it can continue to provide a great facility for the village”

8. CIL Expenditure Proposals

The village has approximately £4.5k of CIL (Community Infrastructure Levy) available to spend. This is money paid by housing developers to the Parish and is held on our behalf by Babergh. We have to apply to Babergh to spend this money and we require the formal agreement of the Parish Meeting to proceed. The next round of CIL applications closes on 30th May. A number of different proposals which had been researched by Justine Turner and Stephen Morley were then discussed.

- Replacement Noticeboard. The current noticeboard is in a bad state of repair and is too small. Two quotes for a larger replacement with double doors and the equivalent of 3XA3 spaces had been received. Both quotes were for around £400. A vote was taken and the Parish Meeting unanimously approved a CIL application for a replacement noticeboard with an estimated cost of £400 +/- 20%.
- Picnic table. A wheelchair friendly picnic table installed on a concrete base in the area of the play equipment at the pavilion. A number of different prices had been obtained with a recycled plastic table (timber effect) at £600 up to various hardwood options with different bases costing between £1500 and £2000. The wooden options were considered too expensive and also harder to maintain. A vote was taken and a majority of the Parish Meeting approved a CIL application for a recycled plastic picnic table with an estimated cost of £600 +/-20%. Two parishioners voted against.
- Grass grid reinforcement at the junction between the Pavilion car park and the overflow parking area on the grass. Two quotes for 36sqm are in the range £1000-£1100. A vote was taken and the Parish meeting unanimously approved a CIL application for grass grid matting with an estimated cost of £1100 +/-20%.

Justine Turner will complete these three applications prior to the month end deadline.

Other ideas which were discussed were broadband installation for the Pavilion and a Parish website, Parishioners were asked to come forward with other ideas in time for the next Parish Meeting. Only proposals that have at least two quotes will be considered for a vote.

9. Any Other Business

Dick Histed raised the issue of the location of the 30mph speed limit on Boxford Road outside the built up part of the village and brought the Meeting up to speed on developments on this issue since 1996. The current view, following a speed survey in 2020, is that a case can be made for extending the limit southward just beyond East View but that the County Council are not able to fund it as there are other speed limit projects of a higher priority. James Finch explained that the relocation of the 30mph limit would require a Road Traffic Order which results in an overall cost of £6k. After some discussion Sandy Histed suggested that the three households that would benefit might be able to make a financial contribution. Councillor Finch offered to use his Locality Budget to pay 50% of the costs and the suggestion was put forward that the three householders who would benefit pay the other 50% (£1k each). The three households are Brickpath Cottage, East View and The Plough.

Dick Histed also raised the issue of the inconsistent availability of working ticket machines in Sudbury and Hadleigh carparks. Often these have been out of order and he even received a fine for not having a ticket for free parking. Bryn Hurren explained that a ticket was required for the first three hours of free parking as thereafter parking is charged. He believed that the unreliability of the machines had been resolved but encouraged Mr Histed to contact him directly if the problem recurred, Bryn Hurren apologised on behalf of Babergh District Council.

Justine Turner suggested that a small gift be bought for all children and young adults (<20yrs) in the village to commemorate the Queen's Platinum Jubilee. There are 16 young people in the village and a mug or similar cost £5ea. It was agreed by all that this could be paid for from Parish funds.

10. Date of next Meeting

We will aim to hold the next meeting in November, date to be advised nearer the time.

There being no further business the meeting closed at 9.10pm.

Milden Annual Parish Meeting 17th May 2022

Suffolk County Council Summary Annual Report 2021/22 for the Milden Annual Parish Meeting on 17th May 2022

- Children's Services & Adult Care at the heart of Suffolk County Council's 2022/23 budget.

The County Council's budget for 2022-23 will rise by 4.5% (from £598.2 to £625.4m). This additional money is generated by a 2.99% increase in Council Tax, and an increase in grants received from the Government. The proposals were approved by councillors in February.

In December 2021, Suffolk County Council outlined how it plans to spend more money on public services in 2022/23.

- More money to support children with special educational needs and disabilities (SEND) with an increase of £1.1m in the revenue budget.

This follows a review carried out by a team from Lincolnshire, including Lincolnshire County Council and a parent carer network. The review made nine recommendations and they used these to draft an action plan, which can be read online. One of the recommendations made in the review was to work with a third-party organisation to deliver improvements. The council has since secured Impower as a strategic partner, who will bring capacity and extensive experience of working on SEND systems across the country.

There is an £45.1m capital programme agreed in 2020 to create an additional 870 specialist education places over a 5-year period to 2024. At the moment, more than 6,000 children in Suffolk currently have a health and care plan to identify what support they need to help with their special educational needs. The number has nearly doubled from 3,000 in 2014. A further 12,000 pupils have special educational needs and do not require a health and care plan. Currently, there are 2,000 places at either special schools or specialist units for those with more complex needs. We continue to increase the number of places. Children's education and welfare is fundamental.

- Extra resources for adults in need of care launches the new Cassius service for an improved home care service.

In early June 2021, it was announced that SCC are partnering with Alcove, Rethink Partners and Provide

CIC to deliver their innovative care technology service to people in Suffolk over the next 3 years. From July 2021, the Cassius service gave our social work practitioners, occupational therapists and other front line professionals, new ways to support people to live better and independent lives. Initially the service launched with a high impact, targeted range of technology that will continue to grow into the full Cassius collection. This means that the technology can be customised to meet people's needs and to address individual challenges which will help them live independently at home for longer. More details on the Suffolk Website [here](#).

- Additional funds to prevent flooding and fix footpaths

In December 2021, the Council committed an extra £20 million over the next three years into further improving Suffolk's highway drainage systems and footpaths.

In recognition of the increasing maintenance demand on these areas, councillors approved the use of £10 million to specifically deliver an increasing number of drainage schemes that deal with problems that affect larger numbers of people, and a further £10 million to improve footpath quality and access.

Milden Annual Parish Meeting 17th May 2022

- Another Year of COVID 19 but with restrictions easing – however still be aware !!

23rd March 2020 marks the 2nd anniversary of the first lockdown. We have all learnt a lot to manage this

prevalent virus and many of us learnt to avoid it. Last year I said “my belief is that there is always good that comes out of bad”.

Here is some of the good we have learnt to overcome the unprecedented incident of Coronavirus throughout the year.

- The collection and dissemination of local data and advice to guide the local policy for best practice control.
- The organisation of Home Schooling with the local authority in maintained schools with
- The introduction of “Home but not Alone” free phone line for the lonely.

Page 2

- The follow up to Test and Trace and now recently totally co-ordinated at the local level since March 2021.
- Local co-ordination of the Vaccination programme with Clinical Commissioning Groups via the Director of Public Health – Stuart Keeble.
- We have all learnt to handle the technology to enable on line virtual meetings
- We have saved travelling time and as a result become more productive.
- We should all thank each other for the collaboration that has been achieved.

- Leaders earmarked major investment on road to Covid recovery

It was announced in late June 2021 that a significant investment of £6.238m was approved to support Suffolk’s long-term recovery beyond the Covid-19 pandemic.

Suffolk Public Sector Leaders (SPSL) approved a significant investment of £6.238m towards a range of strategic, community focussed projects and programmes that support efforts in Suffolk’s long-term recovery beyond the Covid-19 pandemic. This money will be used to increase the offer for young people

and families, to improve access to housing, to help local businesses get back on track, to address the climate emergency commitment and to drive future public engagement plans. This includes - £2.6m to invest in future housing projects, improve literacy levels, identify families most in need of support and strengthen the local care offer for young people.

- 99% of pupils receive a preferred primary school on National Offer Day

In April 2021, 99 % of children were offered a place at one of their parents’ three preferred schools and

95% were offered a place at their first preference school.

- State-of-the-art vehicles join Suffolk Fire and Rescue Service’s fleet

In May 2021, Suffolk Fire and Rescue Service unveiled three new vehicles, packed with the latest technology, to support firefighters at emergency incidents. The Command Support Vehicles will typically

be used as a hub at large, complex incidents, from which officers can manage operations and work with

other emergency services.

Milden Annual Parish Meeting 17th May 2022

Some of the new features on the vehicles include:

- Dedicated WiFi, enabling officers at the scene to quickly stream and share data, images, footage and plans with colleagues who are based remotely, for example at the Combined Fire Control Room
- LCD display built into the side of the vehicle, allowing officers to share content with other agencies attending an incident, such as live drone footage and plans
- Latest communications and computer technology with access to live information, weather reports, data on substances and chemicals, and direct contact with other agencies and services

Suffolk Fire and Rescue Service has invested £360,000 in the new units, which replace the three existing

Command Support Vehicles. Suffolk Fire and Rescue Service have also unveiled state-of-the-art rescue vehicles and equipment to provide firefighters with the latest technology for rescues.

• HRH The Duke of Gloucester officially opens The Hold

On September 15th 2021, His Royal Highness The Duke of Gloucester officially opened The Hold, a new archives and heritage centre on Ipswich's Waterfront. The Duke was given a tour of the £20million building, a partnership between Suffolk County Council and the University of Suffolk, which is home to more than nine centuries of history safely preserved by Suffolk Archives. The Duke was shown treasures

from the Suffolk Archives collections spanning 900 years of Suffolk's history, including the oldest document - a Charter of King Henry I granting churches and property to the monks of Eye Priory from around 1119.

• MPs from Norfolk, Suffolk and Essex and County Councillors, unite to protect the countryside and communities from the worst impacts of new pylons and cables

In October 2021, the Offshore Electricity Grid Task Force (OffSET) was set up to review and respond to the

Government's Offshore Network Transmission Review (OTNR).

A new group of MPs from across the region, under the chairmanship of Sir Bernard Jenkin, and including

County Councillors from the region, has been set up to ensure that the emerging proposals of the Government's Offshore Network Transmission Review (OTNR), and proposals to change the Nationally Significant infrastructure Planning regime, are effectively scrutinised.

Page 2

OffSET supports the government's commitment to meet the target of Net Zero by 2050, and the aspiration

to deliver 40GW of Offshore Wind, by 2030. However, this will result in a succession of electricity generation and connection projects in Norfolk, Suffolk, and Essex, over the coming decades, which will have significant impacts on the environment and communities of the region.

The group believes that these ambitions and targets cannot be met, on an "at any cost" basis.

Therefore,

the further development of the onshore transmission system, and the connection of offshore wind farms,

and interconnectors, will require a new deal for communities and the environment. It remains a key priority that we speed up the Government's timetable to transition to the offshore transmission system,

in order to protect our communities from the damaging effects of multiple cable corridors.

Milden Annual Parish Meeting 17th May 2022

· National Grid informal and Statutory Consultation on the Bramford – Twinstead Reinforcement of the Cables and Pylon connection through South Suffolk and the AONB
Much time has been spent by many in preparing for these important consultations during 2021 and early 2022. Enough has been said and written. Suffice to say my thanks go to all the work that individuals within the parishes have put into this important consultation for the area and my thanks also go for the support we have all received from the planning and technical team in Suffolk County Council. After much of a battle, I was pleased to have the opportunity of having face to face discussions with the National Grid Team which were most productive.

· Annual Public Health Report focuses on Mental Health impact of Covid-19
Suffolk County Council, in December 2021, endorsed far-reaching recommendations to improve Suffolk people's mental health and wellbeing. This includes the creation of a dedicated fund of £2.5m and the development of a cross-system group to support community wellbeing in Suffolk.
The strains of the Covid-19 pandemic have meant that the issue of mental health has been in the public consciousness like never before. The unprecedented measures required to reduce the spread of the virus, have placed extraordinary pressures, and demands on the whole population, with around 1 in 5 adults in Britain experiencing some form of depression in the first three months of 2021.
[The report can be viewed here.](#)
